243. **O. WATER INTRUSION AND MOLD GROWTH:** Recent studies have shown that various forms of water intrusion
244. affect many homes. Water intrusion may occur from exterior moisture entering the home and/or interior moisture
245. leaving the home.

246. Examples of exterior moisture sources may be

- 247. • improper flashing around windows and doors,
- 248. • improper grading,
- 249. • flooding,
- 250. • roof leaks.

251. Examples of interior moisture sources may be

- 252. • plumbing leaks,
- 253. • condensation (caused by indoor humidity that is too high or surfaces that are too cold),
- 254. • overflow from tubs, sinks or toilets,
- 255. • firewood stored indoors,
- 256. • humidifier use,
- 257. • inadequate venting of kitchen and bath humidity,
- 258. • improper venting of clothes dryer exhaust outdoors (including electrical dryers),
- 259. • line-drying laundry indoors,
- 260. • houseplants—watering them can generate large amounts of moisture.

261. In addition to the possible structural damage water intrusion may do to the property, water intrusion may also result
262. in the growth of mold, mildew and other fungi. Mold growth may also cause structural damage to the property.
263. Therefore, it is very important to detect and remediate water intrusion problems.

264. Fungi are present everywhere in our environment, both indoors and outdoors. Many molds are beneficial to
265. humans. However, molds have the ability to produce mycotoxins that may have a potential to cause serious health
266. problems, particularly in some immunocompromised individuals and people who have asthma or allergies to
267. mold.

268. To complicate matters, mold growth is often difficult to detect, as it frequently grows within the wall structure. If you
269. have a concern about water intrusion or the resulting mold/mildew/fungi growth, you may want to consider having the
270. property inspected for moisture problems before entering into a purchase agreement or as a condition of your
271. purchase agreement. Such an analysis is particularly advisable if you observe staining or musty odors on the
272. property.

273. For additional information about water intrusion, indoor air quality, moisture or mold issues, go to the Minnesota
274. Association of REALTORS® web site at www.mnrealtor.com.
